- **Industry Structure and Developments:**

The world economy is gradually recovering from economic slowdown. The improved economic performance by the Asian economies is ensuring faster recovery. Even though the global economy is expanding and conditions have improved considerably, the economic activities remain far below the pre – crisis level and the pace and shape of recovery remains uncertain. With the government’s economic stimulus package, the industry and service sector have recovered. With the Reserve Bank of India maintaining a prudent watch on the key policy issues, the liquidity situation in the country have become comfortable. However, high inflation rate seems to be a major dampener.

Meanwhile the Company’s sale of apartments in the Atria is also progressing and will be completed within this financial year. The Company will start work on its budget hotel project at Vadakkancherry during the coming year.

It is hoped that by the time the Company would launch its flagship project, the real estate environment in Cochin would also be conducive for the success of the project. The borrowing costs may escalate somewhat as the government is keen to reign in the inflation, but the Company is confident that it can absorb the higher borrowing costs as and when needed. At present the Company has no interest bearing loans.

- **Risks and Concerns:**

Your Company’s business is highly dependent on approvals, permissions, licenses and sanctions from the regulatory authorities and the government. The delay as to any of the sanctions can affect the business adversely. Your Company is developing procedures and action plans for ensuring proper and timely receipt of sanctions, thereby mitigating the adverse effects of the risk and ensuring better performance of the Company.
